

## Lockers in American High-Schools

In the USA, all schools have lockers where students can store their personal belongings and school supplies. Students keep the same locker all year round, so it's a very big deal where it is located in the school and what it looks like. There is even a Locker Day, just before the first day of school, when students can prepare and decorate their locker.

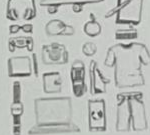

1) Find the words that illustrate these pictures in the text:

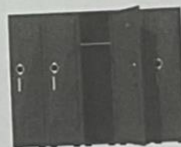

Students

School

Personal belongings

Lockers

School Supplies

2) True or False: Quote the text to justify your answer.

a) All students in the UK have got lockers.
